THE SMALLEST AND MOST POWERFUL IRIDIUM PHONE

The Iridium 9555 provides reliable connectivity from anywhere and can handle any environment: from baking desert to frozen ice parks!

Iridium 9555 is ruggedly built and present more hand-friendly form and aerodynamic features such as an internally stowed antenna. It incorporates innovations such as integrated speakerphone, improved SMS and email messaging capabilities and an upgraded Mini-USB data port. It continues the evolution of satellite phones, making communication more efficient and effective for users.
