PRODUCTS AND SERVICES

THURAYA SEASTAR: THE NEW DATA & VOICE MARITIME TERMINAL

IEC Telecom is glad to announce the launch of a new maritime terminal combining **voice and data**.

In addition to being able to enjoy a broadband connection up to 60 Kbps, the SeaStar also allows calling, sending SMS and tracking capabilities. An intuitive interface is offered to optimize your navigation on the device.

With a very competitive pricing, this new economic and powerful terminal is the cheapest on the market. Ideal for fishing in the Mediterranean Sea or cruising along the Atlantic coasts!

Contact us for more information about this product.

THURAYA XT-PRO DUAL HANDSET AVAILABLE!

Our team had the pleasure to test this new phone that allows you to communicate from everywhere thanks to its two SIM cards. Enjoy connectivity no matter where you are! Highly ruggedized with a shockproof, water and dust resistant body, the XT-PRO DUAL also comes with advanced navigation capabilities through GPS, BeiDou, Glonass and Galileo for the highest flexibility in all regions.

Download the datasheet here or contact our team for more information.

IRIDIUM LAUNCHES IRIDIUM NEXT SATELLITES

The successful launch of the Falcon 9 has enable Iridium to place its first 10 Iridium NEXT satellite in orbit and deploy its news high space communication constellation (6 other launches of 10 satellites are also planned).

This constellation will empower Iridium's L-band users with new services and a bandwidth up to 1.4 Mbps, guaranteed in any condition. An evolution that customers have been waiting for, and that will probably also generate the development of new terminals.

Actual systems will of course remain compatible to make the most of Iridium's services.

Stay tuned for more information on Iridium NEXT services.

EVENTS

IEC TELECOM AT THE AFRICA RACE WITH PARIS WEB CUBE

The Africa Race that took place from January 5th until 21st in Nador, Morocco, has been travelling along with a GX Paradigm antenna working on Inmarsat Network. With this antenna our partner, Paris Web Cube has been able to broadcast live images and videos on social media during the race. A great way to support the running teams from afar.

If you want more information about GX services, ask our team for a demo.

IEC TELECOM: COME TO MEET US!

IEC Telecom team will be pleased to meet you in Düsseldorf for the Boot Boat Show on January 25th and at the Euromaritime show in Paris on January 31st. Book a meeting with our team!
