

IEC Telecom Group announces Corporate Reorganization

To accompany the development of the group an internal reorganization has been conducted.

Paris – September 19th, 2017 - IEC Telecom Group, a leading satellite solution provider, announces today a corporate restructuring designed to better accompany and align resources for its development in the maritime sector, while reinforcing its leading position in its reference markets.

In conjunction with this reorganization, the board of directors has appointed Dominique Audion Group COO (Chief Operating Officer) Middle-East & Asia and Gwenaël Loheac, Group COO Europe.

Dominique Audion will oversee the business development of the Group in the Middle-East and Asian regions and Gwenaël Loheac will be operating the development of the Group in Europe while remaining Managing Director of the business unit IEC Telecom Europe.

The board fully trusts both Dominique and Gwenaël's 20 years' experience in the satellite industry and in the group. It is an asset to maximize the value of IEC Telecom Group and reinforce its expansion into its key markets.

IEC Telecom Group has chosen to boost its expansion in the maritime VSAT industry and advanced solutions, a promising market that has already shown large commercial success in the past year. This reorganization is also aimed at strengthening its presence and quality of service towards its existing clients.

About IEC Telecom Group

IEC Telecom Group supplies high quality satellite-based technology providing clients with efficient end-to-end voice and data services, when and where, it matters most. One of the leading global providers of managed network communication solutions, IEC offers a comprehensive suite of system integration, system products, and network services enabling a complete end-to-end solution for customers. This communication lifecycle & value proposition is taken to selective vertical markets, including Government, humanitarian, wireless, media, energy, enterprise, and maritime.
